My biggest political anxiety is that the young left doesn't care much about socialism past universal health care

Bernie Sanders

@BernieSanders

At a time when so many are hurting, the very, very, very rich should not be getting much richer. By taxing the wealth gains made by just a few hundred billionaires during this pandemic, we can provide health care for all.

Bernie Sanders

@BernieSanders

This pandemic has exposed the ugly realities of the rigged economy. While 467 billionaires saw their wealth increase by \$730 billion in the last few months, working families lost their jobs, health care and homes. We need an economy that works for all, not just the 1%.

My Questions

Does private or ObamaCare insurance pay for COVID-19 treatments?

Does the federal government kick in any funds, directly for this purpose?

Bernie Sanders Health Care

Is it status quo health care, with ongoing private insurance? Or status quo health care, with Bernie

Sanders tax and fund, via ongoing private health insurance, or Medicare For All? Is health health care?

Is the decision to raise a family, and how to raise it, and how to start with A, B, C, a medical health care issue? That is, is it also a medical model thing?

Are things that are noble, true, lovely, of good report a medical issue? Is meditation or thinking a medical issue?

Is a doorway or the architecture of A, B, C relevant? Is a text relevant?

If it's medical, is it biogenetic; and does that exclude most of the planet? If it's biogenetic, is it medical? If it's a tree, is it biogenetic or not, and if it's an ocean, is it biogenetic or not? Is the letter in any UniCode or other alphabet, glyph, and language biogenetic? What of the texts? Is the syntax biogenetic; and what of the semantics?

Is the world ever represented in language? Is the world biogenetic? Is the world ever represented in mind? Is language biogenetic? Is the mind biogenetic?

Company, Product, Structure, And The State (And #AmericaWantsToKnow 'HealthCare Bernie Sanders')

ITEM

Germany spends 11.1% GDP on health care.

(<https://www.oecd.org/germany/Health-at-a-Glance-EUROPE-2016-Briefing-Note-GERMANY.pdf>)

United States spends 17.7% GDP on health care.

(CMS NationalAccountsHistorical.

<https://www.cms.gov/Research-Statistics-Data-and-Systems/Statistics-Trends-and-Reports/NationalHealthExpendData/NationalHealthAccountsHistorical.>)

ITEM

US GDP is 20.54 trillion USD in 2018.

US spends \$3.64 trillion on health care per year.

That works out to, for 320 million people, \$950 per person per month, on average. That is, \$11,361 per year person.

FORK:

BRANCH ITEM A

Using Bernie Sanders' own numbers in conjunction with the aforementioned US spending on health care per year: 730 billion usd / 3.64 trillion usd is 0.201 years of Bernie Sanders funding net result for his scheme of taxing the wealthy at 100 percent for past 4 months. That is, this funding scheme would fund all Americans' health care costs for 2.41 months total.
